SUMMARY

- ◆ A graduate developer who has real passion, dedication and love in coding field.
- ◆ Enhanced practical skills in an e-commerce internship, demonstrating the ability to learn a new framework **fast** and received positive feedback from the boss and team leader.
- ◆ Developed problem shooting and self-learning ability by building my own project “Charles’ Alien World” **from scratch**.

TECHNICAL SKILLS

Tools	Proficiency	Rating (by iclue skill report)
JavaScript	5 months’ experience (frequently used)	Top 30%
AngularJS	5 months’ experience (frequently used)	Top 45%
HTML 5.X	10 months’ experience (frequently used)	Top 45%
GIT	5 months’ experience (frequently used)	Top 30%
MySQL	10 months’ experience (occasionally used)	Top 45%
Gulp	5 months’ experience (occasionally used)	not tested yet
SASS	10 months’ experience (frequently used)	not tested yet
Node.js	5 months’ experience (occasionally used)	not tested yet
Java	5 months’ theoretical knowledge	not tested yet
PHP	7 months’ theoretical knowledge	not tested yet
Selenium	3 months’ theoretical knowledge	Top 45% (testing fundamental)
JIRA	3 months’ experience (occasionally used)	not tested yet
Linux CLI	10 months’ experience (main OS used)	not tested yet

PROFESSIONAL EXPERIENCE

- ◆ **Feb.2017—Jul.2017: Intern Front-end Developer, Avartar International Lt, New Zealand**
- └ Grouped with three senior developers and two students from the University of Auckland, our development team aims at establishing a large, functional and cheap E-store in NZ;
- └ Joined the project with little practical experience, but learnt a new framework **in one week** and was able to put it into practice afterwards, becoming the most earnest junior member and receiving positive feedback from the boss and team leader;
- └ Completed the module “buying product” in our project, with the functionality of looking for products, select products and display product details extracted from app database;

- ☞ Designed the UI of “Item details”, demonstrating an appealing commercial display;
 - ☞ Used Git to merge other teammates’ code from other modules into master and solved all the conflicts;
 - ☞ Overall, had good practical exercise in AngularJS and RESTful architecture
 - ☞ Meanwhile, built my own project “[Charles’ Alien World](#)” **from scratch** to further strengthen my skills;
 - ☞ Developed strong independency and problem shooting ability in web-site building. Recorded all my work and skills in this modularized app. Added simple animations made by web-kit and ng-animate.
- ◆ **Jan.2014—Jul.2016: Project Management Specialist, Starway Bio-Technology Co., Ltd, China**
 - ☞ 2 years’ previous experience in financial domain, with mature interpersonal skills and hard-working spirit;
 - ☞ Multiple positions and duties: English translator, project manager and director’s assistant.

EDUCATION BACKGROUND

- ◆ **Sep.2006—Jun.2010: Bachelor of Science, Fudan University, China (GPA 3.0 out of 4.0)**
One of the top three universities in China, outstanding learning ability and hard-working spirit
- ◆ **Sep.2010—Jun.2011: Master of Banking Finance, Queen Mary University of London, England (Top 10%)**
Good interpersonal skills in multi-cultural background, and graduated with a distinction award
- ◆ **Aug.2016—up to now: Diploma of Computering, ICL, New Zealand (Top 5%)**
Local education background with a solid knowledge of networking and principles of computer.

CERTIFICATIONS

- ◆ Software testing: ISTQB certificate in foundation software testing (34 out of 40)
- ◆ Numerical and logical ability: GMAT (710 out of 800)
- ◆ Written and verbal communication proficiency: IELTS 7.5 (out of 9.0); TOEFL 103 (out of 120)
